## EDUCATION

### Singapore Management University (SMU)

Singapore

*Bachelor of Science (Computer Science)*

Aug 2024 - Present

- Coursework focus: Programming Fundamentals, Data Structures and Algorithms, Statistical Thinking for Data Science
- CCA Involvement: SMU AI Club, SMU Ellipsis, SMU Myanmar Community, SMU Red Cross (Project AC)
- Awarded ASEAN Undergraduate Scholarship

### Royal Academic Institute & KAI Global School

Myanmar & Canada

*Ontario Secondary School Diploma*

Dec 2022 - Dec 2023

- Coursework focus: Computer Science, Mathematics, Business Leadership: Management Fundamentals
- CCA Involvement: KAI Math Club, KAI Arts and Crafts Club
- Graduated with an overall grade of 93%

## WORK EXPERIENCE

### AI Singapore

Singapore

*Data Quality Assurance Student Assistant*

Aug 2025 - Present

- Created quality prompt-response pairs to authentically represent cultural practices from Myanmar
- Evaluated dataset reliability, validity, and accuracy; verified content by cross-checking reputable sources and references
- Performed human qualitative evaluation of LLM outputs; flagged hallucinations and bias risks; recommended corrective prompts

### Thate Pan Hub

Myanmar

*Curriculum Development Team Member*

Nov 2023 - Feb 2024

- Reviewed and provided suggestions to enhance CS course syllabi; supported development of age-appropriate lesson plans, exercises, and assessments
- Delivered the Hour of Code 2023; facilitated hands-on programming activities for first-time learners
- Supported curriculum alignment with learning outcomes; offered feedback to refine materials based on classroom observations and student performance

### The Forward Society

Myanmar

*Operations Director*

Sep 2023 - Apr 2024

- Implemented SOPs across teams to streamline event delivery, communications, and improve reliability and cross-team handoffs
- Led planning and execution for projects, consulting programs, and aligned with external collaborators
- Onboarded and trained new members; authored a facilitator and project development handbook with step-by-step task guides

*Project Development Officer, Student Affairs Officer*

Jan 2023 - Sep 2023

- Created event proposals with clear objectives and timelines; secured approvals and coordinated cross-team inputs for smooth sign-off
- Managed member data records and analyzed participant profiles to generate insights on audience engagement and demographics
- Built lightweight tracking dashboards and templates to standardize workflows and reduce rework across initiatives

## TECHNICAL SKILLS

---

- Languages: Java, Python, C, JavaScript, TypeScript, HTML/CSS
- Frameworks: React, Next.js, Node.js, Tailwind CSS, shadcn/ui
- Databases & APIs: PostgreSQL (Neon), MySQL, REST APIs
- Development Tools: Git/GitHub, Vercel, VS Code
- Design Tools: Figma, Canva, Picsart, Photoshop
- Productivity: Google Workspace, Microsoft Office Suite

## PROJECTS

---

### Portfolio Website (<https://winleithawdar.vercel.app/>)

Singapore

Individual Project

Aug 2025 - Sep 2025

- Built a modern, multi-page portfolio with App Router, responsive layouts, dark/light themes, and clean visual hierarchy
- Implemented project filtering, multi-category tags, and dynamic content sourced from a single config
- Deployed on Vercel with image optimization and accessible components
- Stack: Next.js, TypeScript, Tailwind CSS

### AutoGreen.sg (<https://autogreen-sg.vercel.app/>)

Singapore

Ellipsis Tech Series Hackathon - Group

Aug 2025 - Sep 2025

- Built a Chrome extension and web dashboard that highlights eco-labeled products and auto-selects greener checkout defaults
- Achieved Top 10 placement at Ellipsis Tech Series; emphasized real-world sustainability nudges aligned to SG Green Plan 2030
- Implemented domain logic for option toggles and verifications; shipped demo and production deployment on Vercel
- Stack: Next.js, React, TypeScript, Tailwind CSS, PostgreSQL (Neon), Chrome Extension

### RentLah! (<https://rent-lah-heap.vercel.app/>)

Singapore

Summer Full Stack Development Camp - Group

May 2025 - Jul 2025

- Developed a student housing platform with verified listings, map-based search, and real-time chat to reduce search friction
- Designed listing schema, proximity context (campus), and UI to increase relevance and trust
- Deployed on Vercel; integrated server routes and websocket messaging
- Stack: Next.js, PostgreSQL (Neon), Socket.io, Tailwind CSS

### SMU Nest ([Figma Link](#))

Singapore

Interactive Design and Prototyping Project - Group

Sep 2024 - Nov 2024

- Prototyped a mobile app to help SMU students find safe, affordable housing with filters and student-verified reviews
- Conducted lightweight research and empathy interviews, mapped flows for onboarding, search, and shortlist
- Delivered an interactive Figma prototype focusing on clarity, usability, and student-centric context
- Tools: Figma, Loop 11 (for A/B Testing UX Research)
